Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-4,6 and 9-18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Yager et al.

See the appropriate paragraph of paper 10.

With respect to new claims 10-21, Yager et al. teach a third fluid that contains a reagent and has been read on the claimed partition interface/third fluid.

Allowable Subject Matter

Claims 19-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 7/30/03 have been fully considered but they are not persuasive.

Applicant's 7/30/03 amendments have overcome the 35 USC 112 issues and the rejections over Manz et al.

Applicants state Yager et al. fails to teach a first conduit for flowing a first compound and a second conduit for a second fluid where both have constrictions. Yager teaches in figure 3 a first inlet (30) for a first stream having a constriction at the stream inlet (50) and a second inlet (20) for a second stream having a constriction at the

Art Unit: 1743

stream inlet (40). The Office believes Yager et al. full meets all of the claimed limitations.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
